

MIDAS # 1742
COUNTY ROAD LAKE

NEW LIMERICK TWP, AROOSTOOK CO., MAINE

COUNTY ROAD LAKE

New Limerick, Aroostook County
U.S.G.S. Meduxnekeag Lake, Me (7 1/2')

Fishes

Yellow perch
Chain pickerel
White sucker

Hornpout (bullhead)
Pumpkinseed sunfish
American eel

Physical Characteristics

Area - 32 acres
Average depth - 13 feet
Maximum depth - 21 feet

Temperatures:
Surface - 72⁰F
18 feet - 70⁰F

Principal fishery: Chain pickerel

County Road Lake provides good habitat for chain pickerel and presently supports a good pickerel population. Water temperature becomes warm at all depths during mid-summer months. Yellow perch serve as a major food item for pickerel.

The possibility for brook trout management is highly unlikely due to the lack of public access and the severe competition from the existing species.

The lake is currently open to ice fishing.

Surveyed - August 1958
